Powering our Mahé sites with the sun

Solar PV • Battery storage • Supply, installation and O&M

Lot 1
Head Office, Ile du Port

Lot 2
Zone 21 camp, Cascade

Indicative panel layouts only. Main image: Lot 1 – IDC Head Office. Inset: Lot 2 – GICC Zone 21 work camp

Solar PV and Battery Energy Storage Systems – two sites on Mahé

Islands Development Company Limited (IDC) and its subsidiary Green Island Construction Company Limited (GICC) jointly invite qualified companies and consortia to express their interest in designing, supplying, installing and commissioning rooftop solar PV and battery storage systems, and in operating and maintaining them after commissioning. Respondents may express interest in either lot or both.

The project

- **Lot 1 – IDC Head Office:** indicatively 500–600 kWp of solar PV and 900–1,100 kWh of battery storage
- **Lot 2 – GICC Zone 21 work camp:** indicatively 200–800 kWp of solar PV, with or without battery storage
- **Systems purchased outright**, each with a 10-year operation and maintenance contract
- Open to solar EPC contractors, installers and system integrators, alone or in consortium

How to respond

Request the EOI document by email from the contact below. Responses must include the company profile, projects undertaken and financial standing. Shortlisted companies will be invited to submit full proposals.

Closing date: 5 November 2026, 12:00 Seychelles time

IDC is not bound to shortlist any respondent and may cancel the process without liability. Canvassing will lead to disqualification.
